

Storage, packing, sampling and transport of sensitive chemicals, fragrances, flavours, food ingredients...

## SYSTEM PLUS RANGE

As the market reference, the SYSTEM PLUS range is UN registered, and available as standard in plain finish or with inner coating. Made of pure aluminium 1050 A, the bottles offer an excellent resistance to shocks, perforations and to chemical or UV aggressions.

Seamless with tamper evident closures, it is a guarantee of perfect tightness and maximum security.

The range covers capacities from 50ml to 32L with 3 main types 32, 45 and 62. The SYSTEM PLUS is the ideal solution for the storage, sampling and transport of all sensitive chemicals, fragrance compositions, food ingredients and high value raw materials.

● liquid products

### SYSTEM PLUS 32

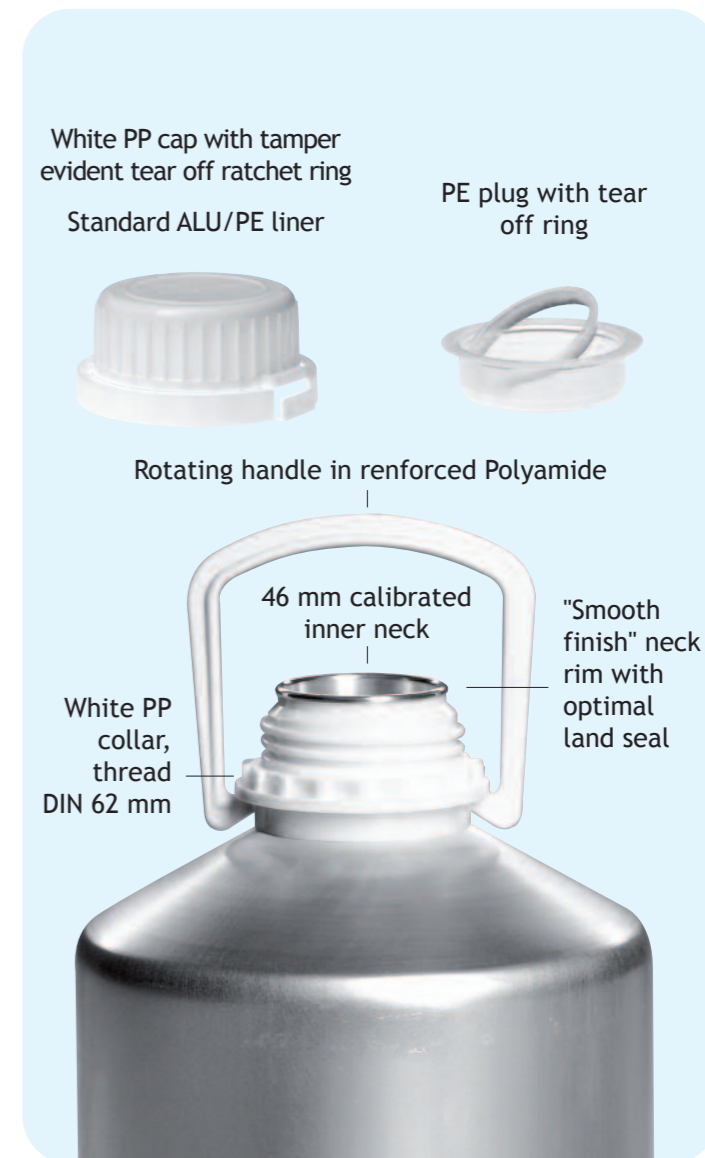

Covering capacities from 50ml to 1.1L, the SYSTEM PLUS 32 with its small opening (inner neck opening 22mm) is convenient for packing and sampling in small quantities flavors and perfumes, food ingredients and sensitive chemicals (adhesives, solvents...).

● liquid products

### SYSTEM PLUS 45

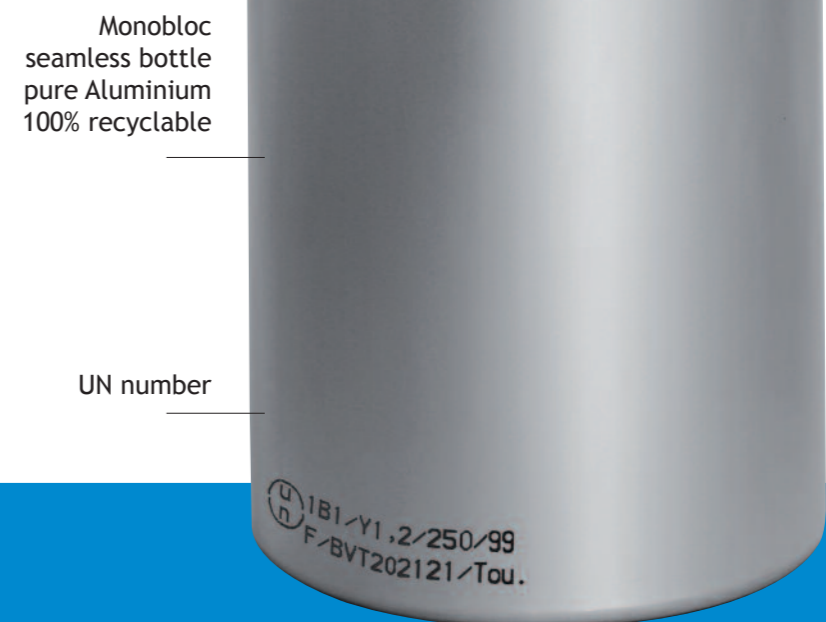

Covering capacities from 0.625L to 1.1L (with its intermediate inner neck opening 28mm), the SYSTEM PLUS 45 is used for perfumes compositions, aroma chemicals, food ingredients and laboratory liquid reagents.

● liquid products  
● viscous products

### SYSTEM PLUS 62

Covering capacities from 4L to 32L, the SYSTEM PLUS 62 (with its larger neck opening 46mm) is ideal for the storage and transport of semi bulk and bulk quantities. Its rotating handle helps to manipulate the drums.

## SYSTEM PLUS RANGE

### SYSTEM PLUS 32

Capacity (ml)	Quantity per box	Quantity per pallet	Inner neck Ø (mm)	Bottle body Ø (mm)	Bottle height (mm)	Label height (mm)	Weight (g)
50	430	5 160	22,5	45	68	20	22
125	348	6 960	22,5	50	100	40	31
160	348	5 916	22,5	50	120	60	36
275	250	3 500	22,5	59	143	75	39
315	250	3 250	22,5	59	159	91	42
625	160	1 600	22,5	74	192	110	69
1 100	110	880	22,5	88	243	140	100

Indicative standards in mm and ml - Total height with closure - Weight without closure

### SYSTEM PLUS 45

Capacity (ml)	Quantity per box	Quantity per pallet	Inner neck Ø (mm)	Bottle body Ø (mm)	Bottle height (mm)	Label height (mm)	Weight (g)
625	160	1 600	28	74	196	110	76
1 100	110	880	28	88	246	140	106
1 250	110	770	28	88	266	160	127
2 500	60	420	28	120	297	211	224
4 000	24/26	208/216	28	175	239	147	292
5 500	11/26	110/156	28	175	300	208	430
6 250	11/26	110/156	28	175	341	249	420

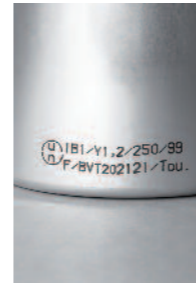

Indicative standards in mm and ml - Total height with closure - Weight without closure

### SYSTEM PLUS 62

Capacity (ml)	Quantity per box	Quantity per pallet	Inner neck Ø (mm)	Bottle body Ø (mm)	Bottle height (mm)	Label height (mm)	Weight (g)
4 000	24/26	208/216	46	175	243	147	320
5 500	11/24/26	110/156	46	175	304	208	300
6 250	11/26	110/156	46	175	345	249	440
12 500	8	90	46	220	419	305	750
25 000	2	44	46	300	468	325	1 390
32 000	2	33	46	300	553	410	1 640

Indicative standards in mm and ml - Total height with closure - Weight without closure

ALUMINIUM

## SYSTEM PLUS 32/45/62

#### Lightness and solidity

- Mechanical protection against shocks and perforations.
- Chemical protection : neutral and harmless.
- Total protection against light and gazes.

#### Tightness

- Seamless bottle manufacturing.
- Optimal finish of neck rim.
- Solvent resistant liner.
- Tamper evident closure.

#### Conformity

- Standard neck.
- Compliant to the European standard regulation for food contact.
- Constant quality : weight, dimensions...
- Comprehensive traceability by embossed code.

#### UN transport regulation

- Full product range approved for transport of dangerous goods (group 1).
- UN approved boxes.

#### User Friendly

- Adjustable handle SYSTEM PLUS 62.
- Precise drop, easy to empty.
- Standard closure.

#### Recyclability

- High scrap value of aluminium.
- 100 % recyclable.

#### Options and accessories

- LDPE plugs with tear off ring.
- PTFE/PE expanded liner.
- Screwing device, dynamometric key.
- Security seals.
- Colored collars on demand.
- Printed logo on caps, or customized bottle finish.

Note: user is responsible for the compatibility of its product with the Tournaire packaging system, see our general sales terms.
